

Mobarakeh Industrial Plastic Production Company, Mirco (Private Company)

Date: 005/09/17

No: 32100/564

Enclosure:

In the name of God

To Behineh Niru Spadan Company

Hi

Respectfully, Power Analyzer device designed and manufactured by Behineh Niru Spadan Engineering Company for energy management, and control of Banburi in plastic production machinery has the technical consent of our company. This device has saved us 20% in consumed energy, dramatically improved the quality of products and has helped in controlling Banburi.

We are also satisfied with post sale services of that company.

Thanks

Mohammad Mahdian
Chairman
