

Ministry of Industries and Mines

To the honorable chairman of Behineh Niru Spadan Engineering Company

What you have achieved up to now, as a result of your efforts is strong primary basis for developing the target market and non petroleum exports more, and its highly valuable effects will emerge in the future.

To acknowledge your and your qualified employees' considerable efforts and endeavors in the research and development area, in that unit, which have succeeded in the production of "stationary and portable Meter Tester, Power Analyzer and Data Logger " as noble products in the Persian year 1383 (2003-2004), we give you this appreciation award.

We wish that based on wise interaction with complex contemporary economy of the world you will be able to take stronger steps for exaltation of dear Iran and pride of future generations.

Eshagh Jahangiri
Minister of Industries and Mines
